Full Stack Developer with 2+ (2.8) years of hands-on experience designing, developing, and implementing applications and solutions using a range of technologies and programming languages. Seeking to leverage broad development experience and hands-on technical expertise in a challenging role as a Full-stack Developer. I would say my utmost and greatest strength is the passion I have for programming and developing.

Professional Experience

Verishare

Full stack developer, July 2020 – Present

- Managed by the SCRUM management technique
- Ensure web application security and ability to interact with multiple APIs and databases
- Worked on a learner management platform allowing learners to be managed and complete online tests, utilizing a range of technologies, including React (HTML, SCSS, TypeScript, JavaScript) , Java (Spring Framework), MySQL database
- Worked on a call center management platform allowing agents to be managed and directed to debtors, utilizing a range of technologies, including React (HTML, SCSS, TypeScript, JavaScript) , Java (Spring Framework), SQL Server database and Stored Procedures
- Direct interaction with the platform users for optimal support.
- While using GitLab as a source control platform making use of Pipelines and Merge Requests
- Conducted unit and load testing before merge requests

Professional Freelancing

Full stack developer, March 2020 - July 2020

- Developed 3+ full-stack web applications to analyse and process data for different clients
- Optimized company's order handling process by creating and delivering highly efficient app-based solutions
- While using GitHub as Source Control
- Web applications deployed both on Staging and Production using a Windows Server IIS 2012
- C# Asp.net Core with Entity Framework (Both code-first and database-first approaches) for REST API development
- Angular (HTML, SCSS, Typescript) and angular Material with a Lazy-load approach for Frontend web solutions
- Flutter for interactive cross platform mobile applications

Danko Spark

Junior Developer, December 2018 - March 2020

- Developed full-stack applications across various platforms and web applications using latest industry-adopted technologies and frameworks
- Gained hands-on expertise in Asp.net Core, Angular, SQL Server as well as coding standards and teamwork skills
- Worked closely with a team of 3 developers
